LinkedIn: linkedin.com/in/v-vishnu-vish260623 | GitHub: github.com/Vishnu2663

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building scalable backend applications using Node.js, Express.js, PostgreSQL, and AWS. Skilled in REST APIs, GraphQL, SQL optimization, stored procedures, and Odoo ERP integration. Currently contributing to production platforms — Prezence, Glyd, and Salary365 — delivering reliable, performant, and enterprise-grade backend systems.

EDUCATION

Sapthagiri College of Engineering, Bangalore — *B.E. Electronics & Communication* 2025
CGPA: 7.9

Seshadripuram PU College, Bangalore — *Pre-University (PUC)* 2021
Percentage: 86%

Rajarajeshwari English High School, Bangalore — *SSLC* 2019
Percentage: 89.28%

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL
Backend: Node.js, Express.js, REST APIs, GraphQL, Microservices
Databases: PostgreSQL, MySQL, DynamoDB, Functions, Stored Procedures
Cloud & AWS: Lambda, S3, EC2, DynamoDB, AppSync
Enterprise: Odoo ERP, JSON-RPC, API Integration
Tools & DevOps: Git, GitHub, Docker, Maven, Postman, VS Code, Agile

PROFESSIONAL EXPERIENCE

Mobi80 Solutions — *Software Engineer* Dec 2025 — Present
Bangalore, India

- Engineered scalable REST and GraphQL APIs with Node.js and Express.js across server-based and serverless architectures.
- Designed and optimized PostgreSQL queries, functions, and stored procedures for high-volume production workloads.
- Integrated AWS services (Lambda, S3, DynamoDB, AppSync) with Odoo ERP for invoicing, synchronization, and workflow automation.
- Resolved production issues, debugged critical incidents, and collaborated with cross-functional teams in an Agile environment.
- Improved backend performance through SQL tuning, indexing strategies, and API-level caching.

PROFESSIONAL PROJECTS

Prezence *— Attendance Management Platform* (Node.js, PostgreSQL, AWS, GraphQL, AppSync)

- Built backend APIs for real-time attendance tracking and workforce management.
- Authored PostgreSQL functions and optimized SQL for reporting-heavy workloads.
- Integrated AWS AppSync, Lambda, and S3 for authentication and backend workflows.

Glyd *— Employee Travel & Expense Management* (Node.js, PostgreSQL, REST APIs)

- Developed and maintained backend APIs for travel requests and expense processing.
- Implemented core business logic, validations, and complex database operations.
- Optimized SQL queries and indexes to reduce backend response times.

Salary365 *— Payroll Management Platform* (Node.js, PostgreSQL, AWS, Odoo ERP)

- Delivered backend APIs for employee management and end-to-end payroll processing.
- Implemented salary advance workflows and business-rule-driven validations.
- Integrated Odoo ERP for invoice generation and bidirectional data synchronization.

ACADEMIC PROJECTS

Sentiment Analysis on Social Media *— Machine Learning*

- Built a sentiment analysis model to classify social media text using machine learning techniques.

Dockerized Spring Boot Application *— Containerized CI Workflow*

- Containerized a Spring Boot application with Docker and set up a CI workflow for automated builds and deployments.

Java Web Application Deployment *— AWS EC2*

- Deployed a Java web application on AWS EC2 with proper configuration and environment setup.

CERTIFICATIONS

- Java Full Stack Development
- IBM SkillBuild Certification
- DevOps Certification
